MEMO

Planning and Zoning Commission
525 High Street
Paris, KY 40361

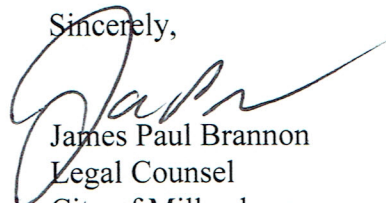

Dear Sirs,

This is to confirm that the Millersburg City Council has given first reading to a text amendment which seeks to adopt landscape buffer regulations. The proposed ordinance given first reading is identical to the landscape buffer regulations in current use by the City of Paris.

Please consider this a request to conduct a public hearing on the proposed text amendment. If recommended by the Commission, the City Council will consider the matter for a second and final reading at its next regular meeting, with any recommended alterations.

Thanks.

Sincerely,

James Paul Brannon
Legal Counsel
City of Millersburg
