

Technical Memorandum

To:	Andrea Lacy	Date:	March 29, 2018
	Paris/Bourbon Co Planning	GRW Project No.:	4602-04
From:	GRW Engineers		
Subject:	03/26/2018 TRC Meeting Agenda Item Recommendations		

MS 18-11

- Revise cul-de-sacs as shown to not exceed 700 maximum length as mandated by the City of Paris.
- Show a new entrance on Bethlehem Road that meets KYTC standards.
- Stormwater calculations
- Show typical sections to be utilized on the proposed streets.
- The new entrance on Bethlehem should be well lit for visibility

MS 18-02

- The new entrance on North Middletown should be well lit for visibility.
- Pump station upgrades / cost from Pat Harney.
- Would the City like to have “traffic calming” devices installed to slow traffic in the new development or would stop signs be sufficient along the main route?
- Stormwater calculations
