

HOUSING WORKING GROUP
MEETINGS 2 & 3
SUMMARY OF PROGRESS

The second and third working group meetings were held on June 3 and June 24, 2019. There were twelve (12) attendees at meeting 2 and sixteen (16) attendees at meeting 3.

Here are the three **draft** housing goals that the working group came to a consensus on:

- **Expand and ensure a diverse ranges of housing choices.**
- **Support infill and redevelopment within existing infrastructure as a strategic component of growth.**
- **Provide well-designed neighborhoods while demonstrating sensitivity toward natural resource conservation.**

OBJECTIVES for Housing Goal #1: Expand and ensure a diverse range of housing choices.

<p>a. Varieties of housing types and densities are promoted.</p>	<p><i>Meeting 3 notes: Group 1 doesn't think this should be kept. Needs to be considered. Or "based on the local population and market demand, varieties of housing types and densities are promoted."</i></p>
<p>b. Coordinate and plan housing for the millennial population of Bourbon County.</p>	<p><i>Meeting 3 notes: Group 1 agrees but because "a" will include this – we need a variety, not just for millennials. Other suggestion was to make this a sub-objective of 'a'.</i></p>
<p>c. Encourage the expansion of affordable and middle-income housing opportunities and integrate new units throughout the community.</p>	<p><i>Meeting 3 notes: Group 1 wants to keep this objective but suggests changing 'throughout the community' to 'at different locations.' Other suggestion: affordable housing is incentivized housing based on income. Housing affordability should be the verbiage used – a market across all incomes where there is a house people can afford. Affordable housing in Bourbon County should be defined in the objective. Use HUD definition? What is the price range?</i></p>
<p>d. Establish an information clearinghouse for financial and technical assistance for stabilization and renovation of urban and rural housing.</p>	<p><i>Meeting 3 notes: Group 1 agrees</i></p>
<p>e. Consider incentives to encourage creation of affordable- and middle-income housing.</p>	<p><i>Meeting 3 notes: Group 1 thinks this should be kept as objective. Eliminate but add 'incentivize' to "c" above.</i></p>
<p>f. Plan for safe, affordable and accessible housing to meet the needs of older and/or disadvantaged residents.</p>	<p><i>Meeting 3 notes: Group 1 questioned if the market was currently dictating this. They suggest keeping this objective. Other suggestion was to change this to a sub-objective of 'a' above.</i></p>
<p>g. Flexible zoning/design regulations to encourage diverse housing options.</p>	<p><i>Meeting 3 notes: Group 1 suggested eliminating this objective but including 'design regulations' in "e" above.</i></p>
<p>h. Energy-efficient development practices and resilient design features are encouraged incentivized.</p>	<p><i>Meeting 3 notes: Group 1 suggested changing incentivized to encouraged.</i></p>
<p>i. Neighborhoods are designed for users of all abilities to have convenient and safe multi-modal access to jobs, education and services.</p>	<p><i>Meeting 3 notes: Group 1 suggested "Neighborhoods to be based upon a list of basic infrastructure requirements, including sidewalks. Other suggestion was to add sidewalks and safe roads.</i></p>
<p>ADDED: Infrastructure must be in place and/or ready for extension.</p>	<p><i>Meeting 3 notes: Group 1 agreed with this.</i></p>
<p>ADDED: Housing types should reflect the needs of interchangeable demographic groups to insure a sustainable supply of housing.</p>	

OBJECTIVES for Housing Goal #2: Support infill and redevelopment within existing infrastructure as a strategic component of growth.

<p>a. Identify and inventory area of opportunity for infill, redevelopment, adaptive, reuse, and mixed-use development and educate the public about redevelopment.</p>	<p><i>Meeting 3 notes: agree. Add “and educate the public”</i></p>
<p>b. Improve the environmental condition of blighted and deteriorating areas within the county. Enforce building and maintenance codes and ordinances to eliminate blighted and deteriorating areas within the county.</p>	<p><i>Meeting 3 notes: Suggested “Enforce building codes to eliminate blighted and deteriorating areas within the county.”</i></p>
<p>c. Bring properties into compliance with the building code.</p>	<p><i>Meeting 3 notes: Suggested taking this out because it can’t be done legally.</i></p>
<p>c. Explore opportunities to combine development efforts with historic preservation and natural resource conservation. Delineate historic districts and develop design standards in alignment with established architectural styles.</p>	<p><i>Meeting 3 notes: Agreed with suggestion from Meeting 2 to add “delineate historic districts and develop design standards in alignment with established architectural styles.”</i></p>
<p>e. Respect the context and design features of area surrounding development projects and develop design standards and guidelines to ensure compatibility with existing urban form.</p>	<p><i>Meeting 3 notes: Agreed</i></p>
<p>f. Implement innovative programs, such as public infrastructure and land bank programs to facilitate sustainable development, including but not limited to, housing, affordable at all income levels, and commercial and economic activity.</p>	<p><i>Meeting 3 notes. Suggestion to eliminate this because it was too broad of objective.</i></p>
<p>g. Create materials that educate the public about infill and redevelopment.</p>	<p><i>Meeting 3 notes: add ‘Enforce the ordinances prohibiting non-conforming illegal uses.’ Other suggestion was to eliminate this but add “and educate the public” in ‘a’ above.</i></p>

OBJECTIVES for Housing Goal #3: Provide well-designed neighborhoods while demonstrating sensitivity toward natural resource conservation.

<p>a. Plan the development of new residential areas around the neighborhood concept by developing new areas as a neighborhood within itself, or by integrating it into an established neighborhood.</p>	<p><i>Meeting 3 notes: Suggestion to strike this out. Other suggestion was 'New developments should be established near neighborhoods....as it depends on where the new neighborhood is going and the new neighborhood shows up as a result of the existing neighborhood.'</i></p>
<p>b. Provide an opportunity for more mixed development, including townhouses and condominiums, apartment buildings, as well as commercial centers and work places within areas designated for future growth.</p>	<p><i>Meeting 3 notes: Suggested adding 'for all generations'.</i></p>
<p>c. Plan for the development of existing rural settlements through the provision of approved sanitary systems and broadband.</p>	<p><i>Meeting 3 notes: Suggestion to strike this out. No sewers, no development. Other suggestion was to add water supply back in.</i></p>
<p>d. Encourage traffic calming techniques for neighborhood/subdivision streets in order to produce safer and more livable streets for motorists, pedestrians, bicyclists, and neighborhood residents.</p>	<p><i>Meeting 3 notes: Change to 'Encourage traffic calming techniques and safety..... Other suggestion was to combine 'g' and 'd'</i></p>
<p>e. Pursue incentives and regulatory approaches that encourage creativity and sustainability in housing development and redevelopment.</p>	<p><i>Meeting 3 notes: Suggested this was too 'wordy'</i></p>
<p>f. Incorporate adequate greenspace and open space into all development projects, which serve the needs of the surrounding population.</p>	
<p>g. Strive for positive and safe social interactions in neighborhoods, including but not limited to, neighborhoods that are connected for pedestrians and various modes of transportation.</p>	<p><i>Meeting 3 notes: Suggested to strike this out. Other suggestion was to combine 'g' and 'd'</i></p>
<p>h. Minimize disruption of natural features when building new communities.</p>	
<p>i. Promote, maintain, and expand the urban tree canopy throughout Bourbon County.</p>
