

GOALS UNDER CONSIDERATION

1. Protect, preserve and enhance the natural, historic, and cultural landscapes that give Bourbon County its unique identity and image (12 votes).
2. Support the development and redevelopment of pedestrian-friendly streetscapes in our downtown areas (9 votes).
3. Promote, support and encourage public art (7 votes).
4. Integrate art and cultivate creativity in our downtown areas (4 votes).
5. Preserve our built history (3 votes).
6. Promote and preserve the historic and archeological resources that contribute to our authenticity (0 votes).

SAMPLE OBJECTIVES

- Highlight and enhance the historic quality of downtown Millersburg, North Middletown and Paris and their surrounding neighborhoods to attract businesses and support economically viable commercial districts.
- Implement policy measures to protect historic resources, incentivize preservation, and enhance the form of surrounding areas, such as downtowns, historic sites, districts, and landmarks.
- Conduct educational efforts to increase awareness of the importance of preservation efforts, processes, and available financial, design, and additional educational resources.
- Plan for higher-intensity uses in areas with multiple transportation options.
- Focus revitalization efforts in existing centers of activity.
- Make public amenities, work places, and residential areas accessible by multiple transportation types.
- Promote multi-use and flex spaces, especially in downtown areas and public spaces.
- Preserve and strengthen the fabric of existing neighborhoods by investing in maintenance and improvements to infrastructure.
- Provide civic and government facilities in centralized and accessible locations as highly visible focal points and symbols of community identity.
- Provide an interconnected system of local and regional public open space and recreational opportunities.
- Require infill and redevelopment projects to be designed for pedestrian use and compatible with existing character and long term goals for the surrounding area.
- Incentivize development that utilizes green building and sustainable development best practices.
- Protect the quality and integrity of existing structures and support preservation efforts.
- Develop design standards and guidelines to ensure compatibility with existing urban form.
- Incorporate schools, libraries, and other community-focused institutions into neighborhoods in order to maximize accessibility for pedestrians and bicyclists.
