

Technical Memorandum

To:	Andrea Lacy	Date:	May 25, 2021
	Bourbon County Joint Planning Commission	GRW Project No.:	4602-04
From:	GRW Engineers		
Subject:	DVP 21-02		

1. DVP 21-02, Building and driveway addition to Kentucky Smelting Technology property, 140 Bellafato Drive, Paris KY
 - A 5000 sf storage building and 1400 sf driveway to that building are being proposed on the Kentucky Smelting Technology property.
 - The existing outlet structure will be modified to allow for post developed runoff to be less than or equal to pre developed runoff. Darnell Engineering has prepared the stormwater report stating these findings.
 - The plan has been reviewed and there are no comments concerning stormwater runoff.
